

BLACK | KANVAS

September 2018

Introduces new brand: **Black Kanvas - Premium Heather Collection**

With the experience and knowledge of the market, it was noted that standard uniforms were lacking that luxury feel. Fabrics used in this range are what is expected from leading sportswear brands in the world.

The superior fabrics with a soft touch feel, continue to have the quality expected from In Style Apparel. The fabrics used are all treated with the

***AEGIS MICROBE SHIELD
(ANTI-BACTERIAL TREATMENT)***

and mixed with our interlock fabric with

Cooldry Technology.

The garments are ready for extended wear. The detail in construction and accents add the flare for the wearer to ***Be Noticed.***

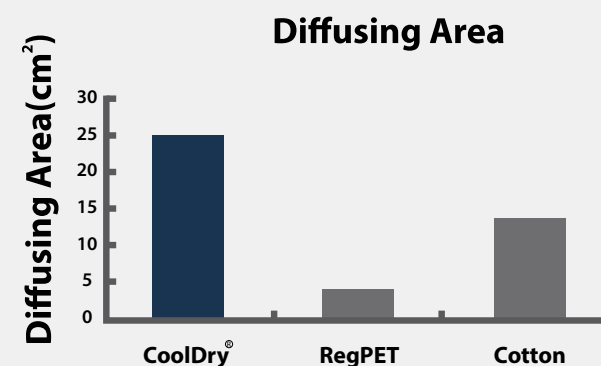

What is Cooldry Technology?

All Black Kanvas stock garments are specially designed with Cooldry Moisture Management Technology. This process starts at the beginning of the fabric production stage. The raw yarn used in the knitting process contains the Cooldry technology, which ensures that it never washes out. The treatment pulls the moisture away from your skin to the outer layer on the garment, therefore making our garments breathable, quick drying, comfortable and moisture absorbent.

Cooldry Technology - How it stands out from the rest

Infused in yarn means it won't wash out
 Draws moisture away from the body
 Breathable Fabric
 Fast Drying

MICROBE SHIELD®

Untreated Fibre VS Treated Fibres

Untreated Fibre

Treated Fibre

What is AEGIS Microbe Shield?

AEGIS Microbe Shield is a high-tech treatment creating a protective coating around the yarn. This colourless, odourless process results in a positively charged polymer that draws bacteria towards the polymer. The bacteria comes to the surface of the fabric and is quickly destroyed. The AEGIS Microbe Shield paired with the Coolsdry Technology benefits result in a high-end garment with long-term stability and durability of the garment.

BLACK|KANVAS

BKP401

**Features:**

CoolDry Moisture Management Technology in Yarn
 AEGIS Microbe Shield (Anti-Bacterial Treatment)
 Loose pocket in body colour
 Loose pocket in contrasting colour
 Regular fit
